Subject: **Oconee Nuclear Station Training and
Qualification Plan, Revision 6
(September 23, 1988)**

Gentlemen:

Pursuant to 10CFR 50.54(p), please find attached the signed original and three copies of Revision 6 of the Oconee Nuclear Station Training and Qualification Plan (T&Q). Revision 6 was developed to address several deletions of redundant information between the Security Plan and the T&Q Plan.

Specific plan changes are addressed in the attachment. Revision 6 does not decrease the effectiveness of the Oconee Nuclear Station T&Q Plan.

This revision should be appropriately docketed.

Very truly yours,

Hal B. Tucker

JWD/531/mmj
