Secretary of the Commission  
Attn: Docketing and Service Branch  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Secretary:

This is to encourage and support your proposal to waive the necessity for off-site emergency sirens for a low-power test at the Seabrook Station nuclear plant.

New England needs Seabrook and I feel it is time to expedite the licensing, subject to reasonable precautions.

Please do not allow opponents to continue to exploit the situation.

Thank you.

Sincerely,

Keith Marceau, Rt. 202, Box 428, Rindge, NH
