OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Secretary of the Commission
Attn: Docketing and Service Branch
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Secretary:

I support the clarification of low-power licensing requirements. I also applaud your intention to propose a new rule to clarify requirements that new nuclear power plants must meet before low-power testing is conducted.

New England, and our nation, needs safe nuclear power and the U.S. Nuclear Regulatory Commission is the appropriate agency to determine when nuclear plants should go on line. Do not let narrow-minded extremists put our country in jeopardy of being energy dependent on other nations.

Thank you for allowing me to express my views.

Sincerely,

John D. Foll
