OFFICE OF  
DOCKETING & SERVICE  
BRANCH

Secretary of The Commission  
Attn: Docketing and Service Branch  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Gentlemen;

I am writing to you in support of the proposed new ruling clarifying requirements for low power testing of Nuclear Power Plants. I applaud your efforts to address these issues on the basis of factual data and unbiased good judgement.

There is too much at stake when considering the huge investment in energy capacity that has been made. Do not let the media hype influence your decision making. New England needs Seabrook in order for the region to prosper in the years ahead. Let's make certain it's safe, but let's get it up and running.

Yours very truly,

  
Raymond R. Levesque
