OFFICE OF THE SECRETARY  
DOCKETING AND SERVICE  
BRANCH

Secretary of the Commission  
Attn: Docketing and Service Branch  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Commissioner:

I am writing to you in regards to the granting of a low power testing license to the Seabrook Station in New Hampshire.

In my opinion, this is a very important and necessary decision to be approved.

For the future of New England we are going to need the electric power that will be available from Seabrook Station.

I urge you to compare the great need for Nuclear Power, safe, and efficient power, that will be available from the Seabrook Station to other sources.

Sincerely,

*Francis J. Storch*
