

A Centenor Energy Company

DONALD C. SHELTON
Vice President - Nuclear
(419) 249-2300

Docket No. 50-346

License No. NPF-3

Serial No. 1536

June 7, 1988

Mr. D. M. Crutchfield
Division of Reactor Projects - III, IV,
V, and Special Projects
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Authorization of SPIP Implementation Schedule
Transmittal

Dear Mr. Crutchfield:

This letter is a follow-up to Mr. Rutherford's letter OG-197 dated May 10, 1988 which transmitted the latest Recommendation Tracking System (RTS) Report.

The B&W Owners Group is using the RTS report as the vehicle to transmit the utility's status, plan, and schedule for implementation of the Safety and Performance Improvement Program (SPIP) recommendations. Since the plant specific information contained in the RTS is provided by each utility, we therefore authorize the B&WOG to submit the RTS on Toledo Edison's behalf. The RTS report may be revised, as necessary, in subsequent report updates.

If additional information is required concerning Toledo Edison's implementation status or schedule information, please contact Mr. R. W. Schrauder, Nuclear Licensing Manager, at (419) 249-2366.

Very truly yours,
