Docket Number 50-254, DPR-29, Unit One

Enclosed is Licensee Event Report (LER) 98-022, Revision 00, for Quad Cities Nuclear Power Station.

This report is submitted in accordance with the requirements of the Code of Federal Regulations, Title 10, Part 50.73(a)(2)(iv). The licensee shall report any event or condition that resulted in manual or automatic actuation of any Engineered Safety Feature.

ComEd is committing to the following actions:

1. Training will revise operator training to address the lessons learned from this event. This will be completed by February 26, 1999.
2. Operations will review and make changes to the Out of Service (equipment tagout) process for heightening the awareness of reliability risks. This will be completed by January 22, 1999.

Any other actions described in the submittal represent intended or planned actions by ComEd. They are described for the NRC's information and are not regulatory commitments.
