

APR 11 1986

FCUP:MLH

DOCKET NO : 40-8027

APPLICANT: Sequoyah Fuels Corporation (SFC)
Gore, Oklahoma

SUBJECT: CATEGORICAL EXCLUSION FOR REQUEST DATED DECEMBER 19, 1985

By letter dated December 19, 1985, SFC submitted a Vegetation Monitoring Program for review and approval. The purpose of the Vegetation Monitoring Program is to provide additional data for the radiological assessment on the ingestion pathway. Therefore, incorporating the program into the current license requires an amendment. No environmental impacts will result from the proposed amendment; in fact, the program will assist in determining the impacts from the facility's operations. Accordingly, pursuant to 10 CFR 51.22(c)(11), the staff concludes that neither an Environmental Assessment nor an Environmental Impact Statement is warranted for this proposed action.

FOR THE NUCLEAR REGULATORY COMMISSION
