Dear Mr. Berkow:

Public Service Company of Colorado (PSC) committed in a letter dated March 25, 1986 (Reference 1) to submit a Technical Specification amendment request concerning Plant Protection System trip setpoints by April 14, 1986. The NRC staff, by letter dated January 24, 1986 (Reference 2), requested this amendment based on their review and acceptance of our proposed trip setpoints and allowable values for the Plant Protective System.

PSC finds that additional time is required to fully integrate the new changes into the existing Technical Specification format. We plan to submit the Technical Specification amendment request by May 16, 1986.

Should you have any questions concerning this matter, please contact Mr. M.H. Holmes at (303) 480-6960.

Very truly yours,

*Lawrence Brey*
