Director, TMI-1  
P. O. Box 480

Gentlemen:

Subject: TMI-1 Equipment Qualification Meeting

This letter is to confirm the planned meeting to be held at 10:00 a.m. on April 18, 1986, at Three Mile Island, Middletown, Pennsylvania. The purpose of the meeting is to discuss the overall equipment qualification program approaches at the Three Mile Island, Unit No. 1 (TMI-1) and Oyster Creek facilities, and, specifically, the recent Performance Appraisal Team unqualified cable finding at TMI-1. You should be prepared to discuss the following items:

- Discuss the methods used to establish the master lists for Three Mile Island I and Oyster Creek, list the similarities and differences.
- Identify from records, to include central and site procurement files, all cable types requiring qualification. Verify and discuss what methods were used to establish qualification (test/analysis).
- Discuss what as-built inspections have been performed at TMI-1 to verify the sampling process.
- Discuss what other commodities or equipment the nonrepresentative sampling techniques were used for in determining the master list.
- Discuss the scope of the current inspection and document review performed by your contractor and the results.

If you have any further questions concerning this matter, contact R. Blough (215-337-5051) or J. Durr (215-337-5282). Your cooperation with us in this matter is appreciated.

Sincerely,
