

OCT 07 1988

Docket No. 50-458

Mr. J. E. Booher
River Bend Nuclear Group
River Bend Station
P. O. Box 220
St. Francisville, Louisiana 70775

Dear Mr. Booher,

On September 21, 1988, the NRC administered a Generic Fundamentals pilot examination to employees of your facility. Enclosed with this letter are the grading and answer sheets for these examinations. You are requested to forward these results to the examinees along with copies of their answer sheets. A "CR" in the column labeled Final Grade indicates a passing grade for this examination.

If a candidate for an operator or a senior operator license decides to substitute the results of this examination for the first section of the site specific examination, he or she must request a waiver of this section of the examination on his or her NRC form 398. If no waiver is requested the candidate will be required to take the entire site specific examination. For candidates requesting a waiver, the results of the pilot examination will be totaled with the other sections of the site specific examination to obtain an overall examination score. If an applicant for either an RO or SRO license takes the current four section examination, the pilot examination results will count for 25% of the total, and if the candidate takes the new three section examination it will count for 25 % for the overall operator examination score or 24 % for the overall senior operator examination score. The passing grade for an NRC administered licensing examination is 80%, including the fundamentals section. Passing Grade for the Fundamentals Section is 70%.

In accordance with 10 CFR 2.790 of the Commission's Regulations, a copy of this letter and enclosures (1) and (2) will be placed in the Public Documents Room. The results for individual examinees are exempt from disclosure, therefore enclosures (5) and (6) will not be placed in NRC's Public Document Room.

~~XXXX~~

In order to better evaluate this pilot examination and improve the design of our future examinations, we have included with this letter voluntary Feedback Forms for both the examinees and the training personnel and voluntary Background Information forms for candidates at your facility. Because of the pilot nature of this examination, we request that you take the time to return them with your evaluations.

This request was approved by the Office of Management and Budget under clearance number 3150-0090. Clearance 3150-0090 expires November 30, 1988. Comments on burden and duplication may be directed to the Office of Management and Budget, Reports Management, Room 3208, New Executive Office Building, Washington DC 20503.

Should you have any questions concerning this examination, please contact Mr. Paul Doyle at (301) 492-1046.

Sincerely,

Kenneth E. Perkins Jr., Chief
Operator Licensing Branch
Division of Licensee Performance
and Quality Evaluation, NRR, NRC

Enclosures:

1. Examination Form "A" with answers and references
2. Examination Form "B" with answers and references
3. Copies of Voluntary Examination Feedback Forms concerning Pilot Examination for examinees.
4. Copies of Voluntary Examination Feedback Forms concerning Pilot Examination for trainers.
5. Examination Results Summary for River Bend.
6. Copies of Candidate's individual answer sheets.

OCT 07 1988

Docket No. 50-263

Mr. Douglas D. Antony
Monticello Training Center
Northern States Power Company
2100 West River Street
Monticello, MN 55362

Dear Mr. Antony,

On September 21, 1988, the NRC administered a Generic Fundamentals pilot examination to employees of your facility. Enclosed with this letter are the grading and answer sheets for these examinations. You are requested to forward these results to the examinees along with copies of their answer sheets. A "CR" in the column labeled Final Grade indicates a passing grade for this examination.

If a candidate for an operator or a senior operator license decides to substitute the results of this examination for the first section of the site specific examination, he or she must request a waiver of this section of the examination on his or her NRC form 398. If no waiver is requested the candidate will be required to take the entire site specific examination. For candidates requesting a waiver the results of the pilot examination will be totaled with the other sections of the site specific examination to obtain an overall examination score. If an applicant for either an RO or SRO license takes the current four section examination, the pilot examination results will count for 25% of the total, and if the candidate takes the new three section examination it will count for 25 % for the overall operator examination score or 24 % for the overall senior operator examination score. If no waiver is requested the candidate will be required to take the entire site specific examination. For candidates requesting a waiver, the results of the pilot examination will be totaled with the other sections of the site specific examination to obtain an overall examination score. If an applicant for either an RO or SRO license takes the current four section examination, the pilot examination results will count for 25% of the total, and if the candidate takes the new three section examination it will count for 25 % for the overall operator examination score or 24 % for the overall senior operator examination score. The passing grade for an NRC administered licensing examination is 80%, including the fundamentals section. Passing Grade for the Fundamentals Section is 70%.

In accordance with 10 CFR 2.790 of the Commission's Regulations, a copy of this letter and enclosures (1) and (2) will be placed in the Public Documents Room. The results for individual examinees are exempt from disclosure, therefore enclosures (5) and (6) will not be placed in NRC's Public Document Room.

OCT 07 1988

In order to better evaluate this pilot examination and improve the design of our future examinations, we have included with this letter voluntary Feedback Forms for both the examinees and the training personnel and voluntary Background Information forms for candidates at your facility. Because of the pilot nature of this examination, we request that you take the time to return them with your evaluations.

This request was approved by the Office of Management and Budget under clearance number 3150-0090. Clearance 3150-0090 expires November 30, 1988. Comments on burden and duplication may be directed to the Office of Management and Budget, Reports Management, Room 3208, New Executive Office Building, Washington DC 20503.

Should you have any questions concerning this examination, please contact Mr. Paul Doyle at (301) 492-1046.

Sincerely,

Kenneth E. Perkins Jr., Chief
Operator Licensing Branch
Division of Licensee Performance
and Quality Evaluation, NRR, NRC

OCT 07 1988

Docket No. 50-321

Mr. W. G. Hairston III
Georgia Power Company
P. O. Box 4545
Atlanta, Georgia 30308

Dear Mr. Hairston,

On September 21, 1988, the NRC administered a Generic Fundamentals pilot examination to employees of your facility. Enclosed with this letter are the grading and answer sheets for these examinations. You are requested to forward these results to the examinees along with copies of their answer sheets. A "CR" in the column labeled Final Grade indicates a passing grade for this examination.

If a candidate for an operator or a senior operator license decides to substitute the results of this examination for the first section of the site specific examination, he or she must request a waiver of this section of the examination on his or her NRC form 398. If no waiver is requested the candidate will be required to take the entire site specific examination. For candidates requesting a waiver, the results of the pilot examination will be totaled with the other sections of the site specific examination to obtain an overall examination score. If an applicant for either an RO or SRO license takes the current four section examination, the pilot examination results will count for 25% of the total, and if the candidate takes the new three section examination it will count for 25 % for the overall operator examination score or 24 % for the overall senior operator examination score. The passing grade for an NRC administered licensing examination is 80%, including the fundamentals section. Passing Grade for the Fundamentals Section is 70%.

In accordance with 10 CFR 2.790 of the Commission's Regulations, a copy of this letter and enclosures (1) and (2) will be placed in the Public Documents Room. The results for individual examinees are exempt from disclosure, therefore enclosures (5) and (6) will not be placed in NRC's Public Document Room.

OCT 07 1988

In order to better evaluate this pilot examination and improve the design of our future examinations, we have included with this letter voluntary Feedback Forms for both the examinees and the training personnel and voluntary Background Information forms for candidates at your facility. Because of the pilot nature of this examination, we request that you take the time to return them with your evaluations.
