Re: CLEVELAND ELECTRIC ILLUMINATING  
COMPANY, ET AL.  
(Perry Nuclear Power Plant,  
Units 1 and 2)  
Docket Nos. 50-440 OL & 50-441 OL

Dear Mr. Silberg:

We note that the Cleveland Electric Illuminating Company, through an affidavit of David R. Green submitted in support of the NRC staff motion for summary disposition of OCRE's Contention 9 relating to polymer degradation, indicated that the surveillance and maintenance program for the Perry facility was to be completed prior to fuel loading of Unit 1. Inasmuch as fuel loading of Unit 1 has now begun, the Appeal Board would appreciate written confirmation that the program has been completed.

Sincerely,

*C. Jean Shoemaker*
