

JUN 09 1988

Docket No. 50-443

Public Service Company of New Hampshire
ATTN: Mr. Robert J. Harrison
President and Chief Executive Officer
P.O. Box 330
Manchester, NH 03105

Gentlemen:

Subject: 10CFR 50.54 Quality Assurance Program Description Review

- References:
1. Letter dated October 19, 1987, from George S. Thomas to the Document Control Desk, transmitting changes to the Seabrook Station Operational Quality Assurance Program.
 2. Letter dated April 11, 1988, from George S. Thomas to the Document Control Desk, transmitting clarification of changes to the Seabrook Station Operational Quality Assurance Program.

Region I staff reviewed the changes to the Seabrook Station Operational Quality Assurance Program transmitted in Reference 1 above and identified several items requiring clarifications. These items included the changes in responsibilities and reporting authority for various management positions; the frequency of meetings between the Vice President, Engineering and Quality Programs and the Nuclear Quality Manager; and the documentation of the Nuclear Quality Review and disposition of nonconforming items. The specific items were provided to your staff during a telephone discussion on November 19, 1987. You provided the necessary clarification for these items in reference 2 above.

Based on the initial review of the changes submitted on October 19, 1987 and your subsequent clarifications submitted on April 11, 1988, the Region I staff determined that these program changes are acceptable as they do not reduce the commitments of your previously approved program.

The effectiveness of your Quality Assurance program implementation will continue to be the subject of routine NRC inspections.

If you have any questions concerning the above, please call Mr. L. J. Prividy (215 - 337-5140).

Sincerely,

ORIGINAL SIGNED BY
WILLIAM V. JOHNSTON

William V. Johnston
Acting Director
Division of Reactor Safety
