R.O. WILLIAMS, JR.
VICE PRESIDENT
NUCLEAR OPERATIONS

U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D.C. 20555

Attention: Mr. Jose A. Calvo
Director, Project Directorate IV

Docket No. 50-267

SUBJECT: Change to the License
Information of the Fort
St. Vrain Technical
Specifications

REFERENCE: Amendment No. 41 to the
Fort St. Vrain Technical
Specification (G-84085)

Dear Mr. Calvo:

As suggested by the NRC in Amendment No. 41 to the Fort St. Vrain Technical Specifications, Public Service Company of Colorado (PSC) is submitting this proposed change to the license information as it pertains to the possession of radioactive materials for the purposes of sampler analysis or instrument calibration. This change would delete the antiquated format in favor of current format for such license information. Also, PSC has reformatted the remainder of the license information without altering its content.

Attachment 1 to this letter is the summary of proposed changes, Attachment 2 contains the change itself, and Attachment 3 is the significant hazards consideration. In accordance with 10CFR170, an amendment application fee of \$150.00 is also attached.
