Gentlemen:

SUBJECT: REPORT NO: 52-17273-01/87-01

Thank you for your response of January 20, and supplemental response of April 20, 1988, to our Notice of Violation issued on December 21, 1987, concerning activities conducted under NRC License No. 52-17273-01. We have evaluated your supplemental response to Violations A.2, B, D, and E and found that it meets the requirements of 10 CFR 2.201.

It is NRC's position that Violation H, concerning posting of notices to workers, is a valid violation. The purpose of 10 CFR 19.11 is to provide notice to employees of certain health and safety information. At the time of the inspection the licensee employees who were accompanying the inspector were neither aware of the notices nor could they show the inspector where such documents were located. The inspector, in the presence of the licensee employees, examined the bulletin board in the Hot Room and no notice was posted. Therefore, Violation H remains as stated. Your corrective action on this matter is acceptable.

We will examine the implementation of your corrective actions during future inspections. We appreciate your cooperation in this matter.

Sincerely,
