SUBJECT: NRC INSPECTION REPORT NO. 50-508/98-201

Dear Mr. Coleman:

This letter refers to the inspection conducted on October 27-28, 1998, at your Washington Nuclear Project Unit 3 facility. The inspection included a review of activities to terminate the Construction Permit No. CPPR-154 for your facility. The enclosed report presents the results of that inspection.

Various aspects of your safety program were inspected including selective examinations of procedures and representative records, and interviews with personnel. Based on the results of this inspection, no significant safety issues were identified.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

If there are any questions concerning this letter, please contact Mr. Marvin Mendonca of my staff at (301) 415-1128.

Sincerely,

ORIGINAL SIGNED BY:
