Gentlemen:

This refers to the inspection conducted by Nemen M. Terc of this office during the period September 12-14, 1988, of activities authorized by NRC Operating License Permits NPF-47 for River Bend Station, and to the discussion of our findings with Mr. P. D. Graham and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included review of the operational status of the emergency preparedness program. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the NRC inspector. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

We have also examined actions you have taken with regard to previously identified inspection findings, in particular the corrective actions taken by you pertaining to the training violation identified in NRC Inspection Report 50-458/87-30. The status of this item is identified in paragraph 2 of the enclosed report.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Original Signed By
L. J. Callan
