Department of State
Washington, DC 20521-5630

Dear Ms. Faux-Gable:

Per your recent request, enclosed is a copy of the Nuclear Regulatory Commission staff's Final Safety Evaluation Report (FSER) for the Westinghouse AP600 design. The staff completed its review of the design and issued a Final Design Approval and the FSER on September 3, 1998.

I trust you will find the FSER useful in your review of the AP600 design. If you have any further questions concerning the AP600 design certification review, please contact the AP600 project manager, Mr. Jerry Wilson, at (301) 415-3145.

Sincerely,

/Original signed by/

Jack W. Roe, Acting, Director
Division of Reactor Program Management
Office of Nuclear Reactor Regulation
