Gentlemen:

SUBJECT: NOTICE OF VIOLATION  
(NRC INSPECTION REPORT NOS. 50-321/87-31 AND 50-366/87-31)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by K. Hooks, J. Heller, K. Jury, G. Pick, W. Scott, and M. Shannon on November 30 thru December 11, 1987. The inspection included a review of activities authorized for your Hatch facility. NRC Inspection Report Nos. 50-321/87-31 and 50-366/87-31 was issued on March 16, 1988, and provided the results of an NRC Headquarters-directed Quality Verification Function Inspection (QVFI). The enclosure to this inspection report referred three concerns noted during the inspection to Region II for enforcement action. This letter is being issued to accomplish the required enforcement.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations of activities in progress.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are described in the enclosed Notice of Violation.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

The responses directed by this letter and its enclosure are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, Pub. L. No. 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

(Original signed by C. A. Julian)
