Mr. John L. Patten, Director
Pennsylvania Emergency Management Agency
P.O. Box 3321
Harrisburg, Pennsylvania 17105

Dear Mr. Patten:

Thank you for the report on the Supplemental Exercise of November 20, 1984 relating to the Limerick Generating Station. I feel the comments concerning Bucks County are presented fairly.

I have instructed Mr. McGill to attend the planning meeting to be held at the Health Department in Norristown on January 7, 1985 and to keep up to date on plans and activities in our neighboring counties.

The Commissioners have reviewed and discussed your memorandum of understanding and have at this time taken no action. The results of the hearings presently under way will have an impact on public opinion no matter what the decision. It is hoped that the public hearings will provide a realistic basis for planning and the concerns of our people can be addressed in a positive manner.

As the results of the hearings become known planning can be appropriately addressed. It is the intent of the County to work with your office in the planning process once a more apparent planning base is established.

Sincerely,

Carl F. Fonash
Chairman
Bucks County Board of Commissioners
