Gentlemen:

This will confirm our telephone conversation of May 22, 1978, when you were requested to submit additional information describing how you intend to monitor possible seepage from the plastic-lined evaporation pond proposed in your pending application for amendment to Source Material License No. SUA-1249.

It is further requested that you indicate the proposed level of detected contamination at which you intend to take corrective action and that you describe what this corrective action will be.

Sincerely,

ORIGINAL SIGNED BY
