Dear Mr. Brown:

This is to advise you that the October 17, 1988 meeting between the NRC staff and Long Island Lighting Company is not cancelled as a result of ALAB-902. At this time, the NRC staff deems it appropriate to better understand the status of various technical issues relevant to the licensee's readiness for operation, notwithstanding the fact that there are issues in the hearing process that need to be resolved prior to the determination of whether or not to issue a full power operating license.

Sincerely,

Jay M. Gutierrez
Regional Counsel
