Dear Sir:

Subject: Oyster Creek Generating Station
Technical Specification Change Request 259
Condensate Storage Tank Level

GPU Nuclear submitted the proposed change to the Oyster Creek Technical Specification by letter to the NRC dated September 3, 1998. The proposed change will correct the required water level in the condensate storage tank so that the design basis is correctly implemented.

The BNE has no comments on the proposed change. If you need to discuss the subject further, please contact Rich Pinney at (609) 984-7558.

Sincerely,

Kent W. Tosch, Manager
