Gentlemen:

Enclosed is the NRC license renewal which you requested.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify us so that we can provide appropriate corrections and answers.

As you stated in your letter dated April 22, 1988, Mid-Pacific Medical Physics may conduct leak testing, perform surveys, conduct radiation safety compliance audits, and train personnel in radiation safety. However, they are not currently licensed to perform gauge maintenance or to remove and dispose of the source. Therefore, License Condition 14. references the manufacturer or other persons specifically authorized by the Commission or an Agreement State. If Mid-Pacific Medical Physics amends their license to authorize these services, Condition 14. will allow them to proceed.

Any future correspondence relating to your license should specifically reference your license and docket numbers to expedite your inquiry.

Sincerely,

Beth A. Riedlinger
Health Physicist (Licensing)
Nuclear Materials Safety Section
