Notification of a Change in Operator Status

This letter serves as notification in accordance with the requirements of 10CFR55.25 and 10CFR50.74(c) of the diagnosis of certain medical conditions and the resulting change in status of the Senior Reactor Operators identified below.

<u>Name</u>	<u>Docket No.</u>	<u>License No.</u>
Gregory F. Collins	55-60244	SOP-10182-3
Daniel D. Glassic	55-62200	SOP-11422
Raymond L. Landis	55-60214	SOP-10838-1

On October 5, 1998, and subsequently, a medical examiner from PECO Energy Company's Occupational Health and Safety Department determined that these individuals no longer meet the standards as set forth in Section 5.4 of American Nuclear Society Standard ANSI/ANS 3.4- 983, "Medical Certification and Monitoring of Personnel Requiring Operator Licenses for Nuclear Power Plants," as originally certified to the NRC.

The specific medical condition for each individual is identified in Attachments 2 through 4, respectively, which contain confidential information, the disclosure of which would constitute an unwarranted invasion of the personal privacy of the individuals involved. Therefore, the information in Attachments 2 through 4 is being submitted to the Commission with a request that it be withheld from public disclosure in accordance with 10CFR2.790(a)(6) of the Commission's Regulations, and is only being submitted to the Regional Administrator, U.S. NRC Region I. Attachment 1 to this letter is an Affidavit setting forth the reasons in support of this request to withhold from public disclosure. The medical condition for each individual is being accommodated through an appropriate medical regime prescribed by the individual's primary care provider.
