SUBJECT: Beaver Valley Power Station-Unit No. 2
Docket No. 50-412
Design Verification Activities

Gentlemen:

Enclosed are five copies of the Stone and Webster Engineering Corporation (SWEC) Engineering Assurance Corrective Action Status Report, In-Depth Technical Audits, dated February 12, 1987. This report provides the status of corrective action items resulting from SWEC Engineering Assurance Audit No. 52.

Additionally five copies of this report have been sent under separate cover to Mr. T. DelGaizo of WESTEC Services.
