SUBJECT: NRC INTEGRATED INSPECTION REPORT NOS. 50-369/98-09 AND
50-370/98-09

Dear Mr. Barron:

On October 3, 1998, the Nuclear Regulatory Commission (NRC) completed an inspection at your McGuire Nuclear Station. The enclosed report presents the results of that inspection. During the six-week period covered by this inspection, your conduct of activities at the McGuire facility was generally characterized by safety-conscious operations, sound engineering and maintenance practices, and careful radiological work controls.

Also, during the inspection period, the NRC received your response dated September 4, 1998, to Violations 50-369,370/98-07-07 and 50-369,370/98-07-09. We have evaluated your response and found that it meets the requirements of 10 CFR 2.201. We will examine the implementation of your corrective actions during future inspections.

In accordance with 10 CFR 2.790(a) of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room (PDR).

Should you have any questions concerning this matter, please contact us.

Sincerely,

(Original signed by)
