Attn: John Potter

Dear Mr. Potter:

In accordance to the N.R.C. requirements, this is a request to amend our materials license to include our office in Harrisonburg, Virginia. The office is located at 11 Warehouse Road, Harrisonburg, VA 22801. This amendment is to include storage and use of troxler gauges for measuring moisture and surface density. Under conditions of page 2, No. 12, "Licensed material shall be used by, or under the supervision", please delete Charles W. Zombro and in place, add Marvin R. Gwin. Mr. Gwin will be the Harrisonburg office potable gauge officer.

Included is a sketch of the Harrisonburg office with the gauge storage labeled. Thank you for your attention in this matter.

Sincerely,

Lloyd C. Winters, C.E.T.
Senior Engineering Technician/
Supervisor

The following enclosures are included with this letter:

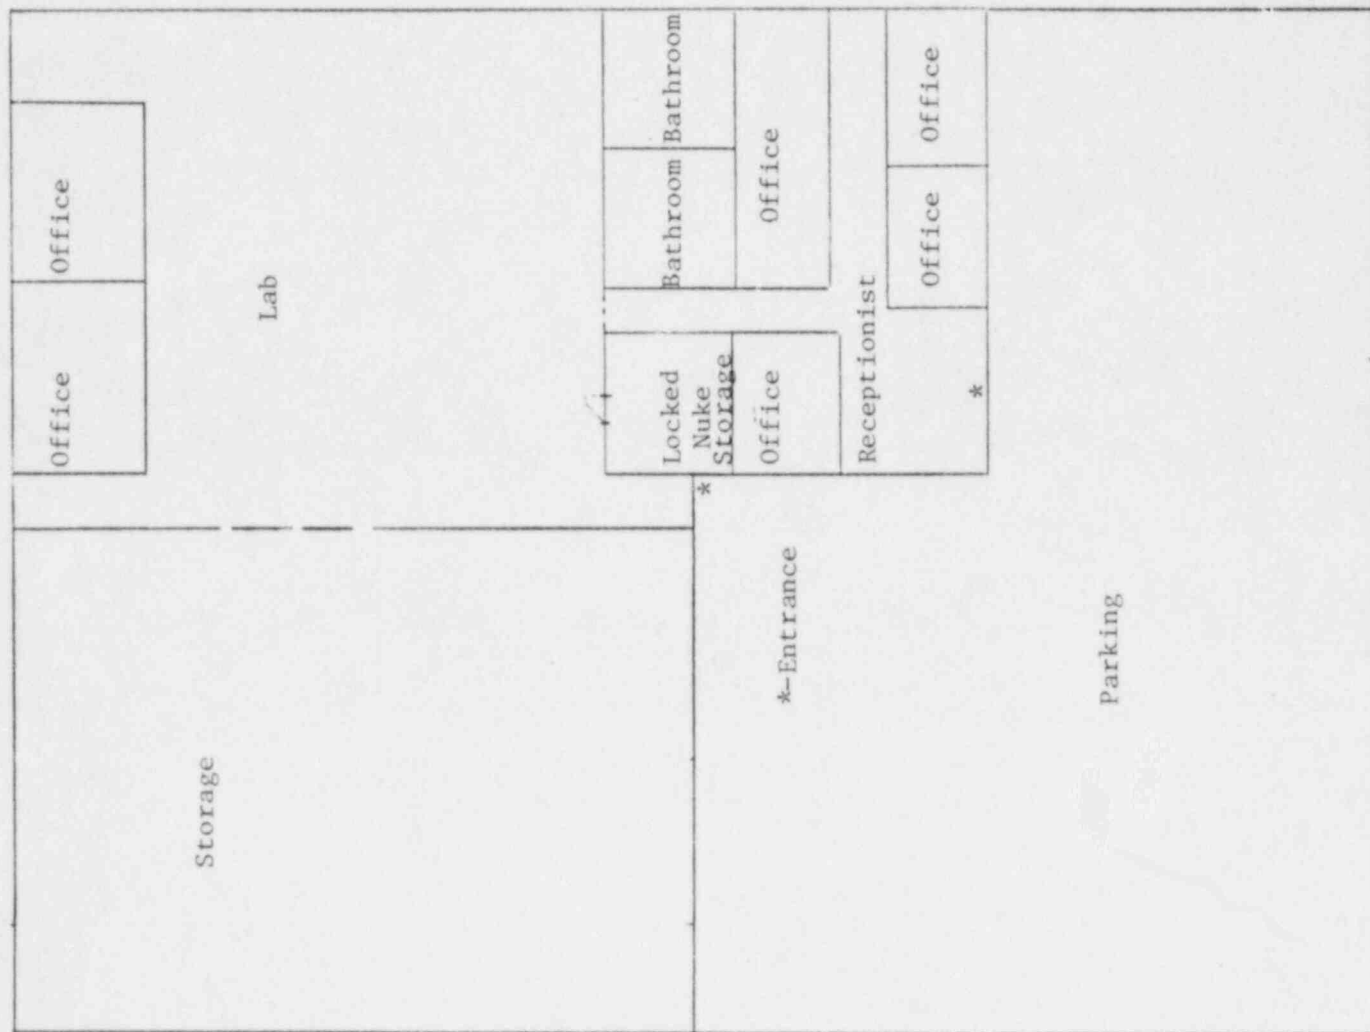

- Sketch
- Check to cover the amendment charge of \$60.00
