Gentlemen:

SUBJECT: DOCKET NO. 50-302

This acknowledges the receipt of your letter of April 13, 1988, which transmitted Revision 4-20 to the Crystal River Physical Security Plan.

We have reviewed the change and determined it has policy implications which require review and disposition from the Office of Nuclear Reactor Regulation. Specifically, the change is an exemption from a requirement which is being pursued because an evaluation has determined that it is not practical to provide additional closed circuit television coverage (CCTV) in the area of concern. Ms. C. Perny, of this office, advised Ms. P. Haines of your staff about the transfer of this action to NRR on June 13, 1988.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

William E. Cline, Chief
Nuclear Materials Safety and
Safeguards Branch
Division of Radiation Safety
