Good afternoon Mrs. Luna,

I have reviewed the licensee's request dated January 20, 2020 to name you as the new Radiation Safety Officer (RSO) on the subject license and new Authorized Users (AUs). Based on the guidance in NUREG 1556, Volume 9, Revision 3, please provide the following information in a signed and dated letter (also co-signed by my management):

1. Request to name a new RSO:
  - a. Because you are named as the Radiation Safety Officer on a number of NRC licenses, please describe how you will allocate time to permit the performance of the duties of the RSO as described in the regulations. Please provide the minimum amount of onsite time (hours per week or days per quarter, as appropriate for the program);
  - b. Identify an in-house representative who will serve as the point of contact during your absence;
  - c. Describe your overall availability to respond to questions or operational issues that arise during the conduct of the radiation safety program and related regulatory requirements;
  - d. Specify the maximum amount of time it will take you to arrive at the facility in the event of an emergency that requires your presence.
2. Please provide a copy of the State of Illinois license no. IL-01361-01, Amendment no. 89. In your letter dated January 20, 2020, you provided a copy of IL-01361-01, Amendment no. 80, which does not authorize the use of 10 CFR 35.300 material. Further, some physicians are not named as Authorized Users.
3. Please provide the medical license number for each physician to be named as an AU on the subject NRC license.

Please provide your response in a signed and dated letter by May 15, 2020. You may submit the response directly to me via email.

Please acknowledge receipt of this email and let me know if you have any questions.

Sincerely,

**Magdalena R. Gryglak**
