June 22, 2020

Ms. Camille Zozula, Manager
Infrastructure & Facilities Licensing
Westinghouse Electric Company
1000 Westinghouse Drive
Building 1, Suite 165
Cranberry Township, PA  16066

SUBJECT:  ACCEPTANCE FOR REVIEW OF WESTINGHOUSE ELECTRIC COMPANY
WCAP-18482-P/WCAP-18482-NP, REVISION 0, "WESTINGHOUSE ADVANCED
DOPED PELLET TECHNOLOGY (ADOPT™) FUEL" (EPID: L-2020-TOP-0025)

Dear Ms. Zozula:

By letter dated May 8, 2020 (Agencywide Documents Access and Management System
(ADAMS) Accession No. ML20132A014), Westinghouse Electric Company (Westinghouse)
submitted to U.S. Nuclear Regulatory Commission (NRC) Topical Report (TR) WCAP-18482-P/
WCAP-18482-NP, Revision 0, “Westinghouse Advanced Doped Pellet Technology (ADOPT™)
Fuel,” for review and approval.

The NRC performed an acceptance review and found that the material presented is sufficient to
begin our review.  We expect to issue our initial request for additional information by
October 16, 2020, and issue a draft safety evaluation by August 30, 2021.  This schedule
information takes in consideration the NRC’s current review priorities and available technical
resources and may be subject to change.  If modifications to these dates are deemed
necessary, we will provide appropriate updates to this information.

The NRC staff estimates that the review will require approximately 595 staff-hours including
project management time.  The review schedule milestones and estimated review costs were
discussed and agreed upon via e-mails between George Yates, Westinghouse, and the NRC
staff on June 16, 2020.

Section 170.21 of Title 10 of the Code of Federal Regulations requires that TRs are subject to
fees based on the full cost of the review.  You did not request a fee waiver; therefore, NRC staff-
hours will be billed accordingly.
If you have questions regarding this matter, please contact Ekaterina Lenning at (301) 415-3151.

Sincerely,

/RA/

Dennis C. Morey, Chief
Licensing Processes Branch
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
