

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

July 22, 2020

The Honorable David Price
United States House of Representatives
Washington, DC 20515

Dear Congressman Price:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your June 18, 2020, letter requesting that the NRC grant the petition for rulemaking by Lucerno Dynamics, LLC, that would require licensees to report extravasations that exceed the NRC's existing medical event reporting criteria. The petition was received on May 18, 2020 and docketed on June 5, 2020.

This summer, the NRC will publish a request for comment in the *Federal Register* to provide an opportunity for members of the public to submit input on the petition. After the public comment period, the NRC staff will review the comments received and prepare a recommendation on the petition for the Commission's consideration. The Commission will consider the merits of the petition, the immediacy of the safety concern raised, and the substance of any public comments received. Once the Commission completes its deliberations, a notice of the decision and any next steps will be published in the *Federal Register*.

If you have any questions or need additional information, please contact me or have your staff contact Eugene Dacus, Director of the Office of Congressional Affairs, at (301) 415-1776.

Sincerely,

Kristine L. Svinicki
