ARLINGTON, TX 76011-4511

May 20, 2020

Scott Fuller, M.S., DABR  
Radiation Safety Officer  
St. Luke's Regional Medical Center  
190 E Bannock St  
Boise, ID 83712

SUBJECT: LICENSE AMENDMENT

Dear Mr. Fuller:

Please find enclosed Amendment No. 93 to NRC License No. 11-27312-01 removing authorized users, submittal of the remodeling update information for the Magic Valley nuclear medicine department, and the updated location names for the "Mountain States Tumor Institute - Boise" (now "St. Luke's Cancer Institute - Boise") and the "MSTI - Magic Valley" (now "St. Luke's Cancer Institute - Magic Valley"), as requested. We have reviewed the floor plan and associated leak tests/surveys and noted your following statements:

- The Magic Valley nuclear medicine department completed a recent remodel with the area of interest highlighted in blue seen in the provided documentation. There has been no change to the designated "use" area and no department impact due to construction, and
- A closeout survey was completed prior to the start of any construction

An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(10)(v), 51.22(c)(14)(iv), and 51.22(c)(20)(ii). You should review this license carefully and be sure that you understand all conditions. You can contact me at (817) 200-1286 if you have any questions about this license.

**The enclosure transmitted  
herewith contains Official Use  
Only – Security-Related  
Information. When separated  
from this enclosure, this  
document is decontrolled.**

-2-

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement is not a regulation, it sets forth the agency's expectations for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at [www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html](http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html). We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) 2005-31, Revision 1, provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through the NRC's Agencywide Documents Access and Management System (ADAMS). The RIS may be located on the NRC Web site at: [www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/](http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/). Pursuant to NRC's RIS 2005-31, Revision 1, the enclosed materials license will not be made publicly available.

Thank you for your cooperation.

Sincerely,

*/RA/*
