Dear Mr. Ayala:

The NRC supports Mr. Richard Stattel, as an authorized NRC representative on the Institute of Electrical and Electronics Engineers (IEEE) Nuclear Power Engineering Committee (NPEC) to represent NPEC Subcommittee 6. Mr. Stattel is a senior electronics engineer and is responsible for performance of technical reviews to support safety evaluations of digital system upgrades for operating nuclear power plants. In accordance with the Office of Management and Budget Circular No. A-119, "Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities," January 26, 2016, the participation on a committee of an NRC-authorized representative does not connote agency agreement with, or endorsement of, decisions reached by the committee, or of standards approved and published as a result of the committee's efforts. Agency representatives participating on consensus standards developing groups will, to the extent possible, ascertain the views of the agency on matters of interest and will express views that are consistent with established agency views.
