Subject: Department of Energy Draft LTSP with regards to the Western Nuclear Incorporated Split Rock Site
Date: Thursday, July 2, 2020 10:37:00 AM

Dear Ms. Jasso:

I am responding to your April 29, 2020, submittal requesting our review and comment on the draft Long-Term Surveillance Plan (LTSP) for the license termination of the Western Nuclear, Incorporated Split Rock site (Wyoming Source Material License No. WYSUA-0056) located in Jeffrey City, Fremont County in Wyoming (Agencywide Document Access and Management System (ADAMS) Accession No. ML20140A364). The Nuclear Regulatory Commission (NRC) staff has found your submittal adequate to begin a detailed technical review. If during our technical review it is determined that additional information is required, we will contact you.

The draft LTSP will be reviewed in accordance with the criteria in Appendix D of NUREG-1620 Revision 1, "Standard Review Plan for the Review of a Reclamation Plan for Mill Tailings Sites Under Title II of the Uranium Mill Tailings Radiation Control Act of 1978." Our goal is to review your draft LTSP and provide the results of our review within 60 calendar days from the date of this email.

We appreciate the Department of Energy's effort to work with the NRC and the State of Wyoming to terminate the Western Nuclear, Incorporated Split Rock site license.

Please contact me if you have any questions.

Thanks much,

Steve

Stephen Poy
