LEAK TEST CERTIFICATE

NC Materials License #092-1073-1

This certifies that leak test analysis was conducted on the sample with the following information. The results shown below accurately represent the level of removable contamination.

Gauge Model: 3440
Gauge S/N: 17573

Test Date: 6/16/2020

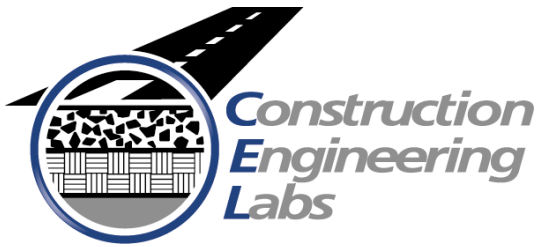

Source (Model/Serial#)	Reading in microCuries
40MCI	0.00020
8MCI	0.00000

Note: 0.005 microCuries (185 Bq) or greater is considered a leaking source.° The source(s) tested above may remain in use.

Subject: License Number 53-23293-01 Amendment Request

Re: Mail control number 618750

Dear Ms Simmons:

Per your email dated June 15, 2020, I would like to request an amendment to Radioactive Material License No. 53-23293-01 to authorize Construction Engineering Labs to close the storage location at 5 Mohala Place, Makawao, Maui HI 96768. The nuclear gauge (17573) used on Maui has been transferred to our main lab facility in Pearl city, Hawaii.

The latest leak test for the gauge 17573 is attached.

We have closed our offices on the Island of Maui.

Please contact me if you need more information.

Respectfully,
CONSTRUCTION ENGINEERING LABS, INC.
