Subject: La Crosse Boiling Water Reactor Submittal of Quality Assurance Program Changes

Reference: Letter from Bruce A. Watson, U.S. Nuclear Regulatory Commission, to Barbara A. Nick, Dairyland Power Cooperative, "La Crosse Boiling Water Reactor – Safety Evaluation Approving Revision 29 to the Quality Assurance Program Description (CAC NO. L53102)," dated May 31, 2016

In accordance with 10 CFR 50.54(a)(3), licensees may make a change to a previously accepted Quality Assurance Program Description (QAPD) described or referenced in their safety analysis report, provided the change does not reduce commitments in the program description as accepted by the Nuclear Regulatory Commission (NRC). A summary of the changes to the QAPD, that do not reduce the commitment, must be submitted to the NRC in accordance with 10 CFR 50.71(e)(4).

The NRC approved the La Crosse Boiling Water Reactor (LACBWR) QAPD, Revision 29, in 2016 (Reference). No changes to the LACBWR QAPD have occurred since implementation of Revision 29 on June 1, 2016. Therefore, no summary of changes is being provided for this reporting period.

There are no regulatory commitments contained in this letter. If you have any questions regarding this letter, please contact me at (860) 462-9707.
