

COM-106 Program Revitalization

TIA (TAR) Process Enhancement Status

Public Meeting with NEI and Industry

July 9, 2020

COM-106 Revitalization Highlights

Rebranded as TAR, and restructured as a **fact-gathering exercise to inform decisionmaking in other processes**, the revitalized TIA process will:

- Embrace **modernization** (e.g., holistic problem- solving, enhanced tools)
- Offer a graded, **risk-informed** approach to screen, scope and evaluate issues
- Work in coordination with the LSSIR* initiative
- Address lessons learned, and feedback from internal and external stakeholders
- Enhance the effectiveness and timeliness of the program
- Integrate **Construction TAR** process in the **merged**, updated COM-106

*LSSIR: Low Safety Significance Issue Resolution (WG recommendations memorandum, ADAMS Accession No. ML19260G224).

COM-106 Revitalization Stakeholder Touch Points

NRC working group kicked off on Jan 31, 2019

- Public engagements with industry were held on March 19, May 29, and Nov 7, 2019
