

*Department of Nuclear Engineering*

June 22, 2020

U.S. Nuclear Regulatory Commission  
ATTN: Document Control Desk  
Director  
Office of Nuclear Reactor Regulation  
Washington D.C. 20555

This letter is to inform you of several staffing changes that will be taking place regarding the University of New Mexico's AGN 201m Nuclear Reactor,

The current Chief Reactor Supervisor, Dr. Robert Busch, will be stepping down from this position June 30, 2020. I have appointed Mr. Carl Willis, a Senior Reactor Operator, to replace Dr. Busch as Chief Reactor Supervisor starting July 1, 2020. Dr. Busch will remain an active Senior Reactor Operator and plans to renew his license in March 2021.

The Department of Nuclear Engineering has hired a permanent Chairman, Hyoung "Hank" K. Lee. Dr. Lee will officially assume the Chairmanship on August 1, 2020 replacing Dr. Fleddermann who has been acting as Chair until a permanent chair was found.

Gary Cooper has been semi-retired for three years. He will remain a Senior Reactor Operator through December 31, 2020 but will not be renewing his license which is to expire in March 2021. Dr. Cooper will remain the Reactor Administrator for a three-year term.

If you have any questions or comments, please let us know.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary W. Cooper".

Gary W Cooper, Reactor Administrator
