P.O. Box 190
8550 E. Michigan Avenue
Parma, MI 49269

Dear Mr. Frazee:

Enclosed is Amendment No. 36 renewing your NRC Materials License No. 21-16560-01 in accordance with your request. Please note that, the former License Condition Nos. 15 and 16 regarding the sealed source leak test and inventory requirements, respectively, were deleted and incorporated into the current License Condition No. 15.B. using the NRC standard license condition. We also changed the secondary program code for using calibration sources for your license from 04423 (at more than 20 locations) to 03124 (less than 6 locations). You may see a reduce in the license annual fee based on this change.

Additionally, you requested to remove three field stations located at 415 S. Lake Dr., Cadillac, Michigan; 17815 Hover Rd., Big Rapids, Michigan; and 2691 16 Mile Rd., Remus, Michigan. Based on the information provided, we have concluded that all licensable radioactive material has been removed from your facility and residual radioactive material attributable to licensed activities does not exceed NRC requirements. Therefore, we determined that the facilities located at 415 S. Lake Dr., Cadillac, Michigan; 17815 Hover Rd., Big Rapids, Michigan; and 2691 16 Mile Rd., Remus, Michigan can be released for unrestricted use.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and

The enclosed document contains sensitive security-related information.

organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <https://www.nrc.gov/docs/ML1619/ML16196A237.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <https://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

In accordance with 10 CFR 2.390 of NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Frank P. Tran
