SUBJECT: ACKNOWLEDGMENT 10 CFR 34.101(C) NOTIFICATION

Dear Mr. Laws:

NRC regulations specifies in 10 CFR 34.101(c) that any licensee conducting radiographic operations or storing radioactive material at any location not listed on the license for a period in excess of 180 days in a calendar year shall notify the appropriate NRC regional office prior to exceeding the 180 days. Pacific Testing Services' letter indicated that it maintains a field stations in Guam. It is our understanding that licensed materials are stored at and dispatched from this locations to temporary jobsites.

This letter serves to acknowledge receipt of Pacific Testing Services' notification of its intent to conduct radiography operations in excess of 180 days at a temporary jobsite, specifically the fuel line replacement project from Anderson Air Force Base to the Guam Naval fuel supply station. This letter received in the Region IV office on April 7, 1999, satisfies the provisions of 10 CFR 34.101(c) for this temporary jobsite location. Note, should operations continue into the next calendar year, 10 CFR 34.101(c) requires that the NRC be notified 30 days prior to exceeding the requisite 180 days.

Thank you for your cooperation.

Sincerely,
