Docket Nos. 50-413 and 50-414  
McGuire Nuclear Station  
Docket Nos. 50-369 and 50-370  
Safety Parameter Display System

Gentlemen:

On February 18, 1988, Duke submitted the implementation dates for the upgrade to the Safety Parameter Display System (SPDS) at the Catawba and McGuire Nuclear Stations. To ensure the modifications are completed on each station's unit at approximately the same time, the implementation dates for each unit have been revised. The new implementation dates are as follows:

McGuire 1 - End of Cycle 6 [Currently scheduled for 2/8/90 - 4/9/90]  
McGuire 2 - End of Cycle 5 [Currently scheduled for 7/1/89 - 8/25/89]  
Catawba 1 - December 8, 1989  
Catawba 2 - December 8, 1989

Please note the Catawba 2 implementation date is dependent upon a License Condition amendment request submitted September 14, 1988.

Very truly yours,

Hal B. Tucker

PGL/
