Response to Request for Additional Information
UFSAR Unreviewed Safety Question - Waste Gas Line Break**

This letter provides additional information as requested during a conference call with the NRC staff on September 24, 1998. The staff requested this information to support its review of License Amendment Request No. 250, which was submitted by letter dated January 17, 1998, concerning an unreviewed safety question resulting from an increase in the waste gas system line break accident dose consequences. The Waste Gas Tank Rupture dose analysis is provided in the attached.

The attached calculation may be changed to reflect facility or procedure changes or other ongoing improvement processes. Any further questions regarding this submittal may be directed to Mr. M. S. Ackerman at (412) 393-5203.

Sincerely,

Sushil C. Jain
