Wading River, New York 11792

Licensee Emergency Classification:
 Notification of Unusual Event
 Alert
 Site Area Emergency
 General Emergency
 Not Applicable

Subject: SHOREHAM PUBLIC MEETING JUNE 15, 1988

A public meeting to discuss the emergency preparedness (EP) exercise held June 7-9, 1988, for the Shoreham Nuclear Power Station, was held on June 15, 1988, in Patchogue, New York. Representatives from FEMA, NRC Region I, and the licensee made presentations to the approximately 250 people in attendance.

The meeting was divided in three parts. The first two parts consisted of prepared statements concerning the content and format of emergency preparedness plans and the conduct and evaluation of the exercise. The FEMA representatives discussed the status of review of the licensee's EP plan and noted that preliminary assessment of the full-participation exercise did not indicate any significant deficiencies in onsite or offsite response. The third part of the meeting consisted of a public comment period. The public comments received were both positive and negative with respect to the operation of Shoreham and did not raise any previously unaddressed issues. A transcription of the meeting, as well as any additional written comments, will be placed in the Local Public Document Room. About twenty protestors, several of whom had placards, made an unsuccessful attempt to disrupt the prepared statements.

The meeting was covered by the news media. Region I is prepared to respond to media inquiries. The State of New York has been informed.
