Dear Sir:

I live within the 10 mi zone of
Seabrook Station and I am in
support of the N.R.C. proposed
"Clarification of emergency planning
requirements for Low Power Licenses"

We in N.E. need the energy.
We are in hopes we can get
by this summer.

In my personal opinion, I feel
Seabrook is the safest Nuclear plant
in the world to-day.

We kill 50,000 people a year on
the roads but we don't stop people
from using cars.

We have never killed one

DS10

person in a nuclear plant in
the U.S.A.

Please move in a safe &
Timley manner so Seabrook &
Pilgrim II can become operational.

Sincerely,

Robert A. Robertshaw
