Secretary of the Commission

U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Secretary,

This letter is in support of the proposed new NRC rule regarding "clarification of emergency planning requirements for low-power licenses".

I urge that you approve this proposal as I feel that the energy which can be generated by the Seabrook Station is vital to the safety and welfare of this area.

Thank you for your consideration

Very truly yours,
