NOV 21 1988

Boston Edison Company
ATTN: Mr. Ralph G. Bird
Senior Vice President-Nuclear
RFD #1, Rocky Hill Road
Plymouth, MA 02360

Dear Mr. Bird:

Subject: 10 CFR 50.54 Quality Assurance Program Description Change Review

Reference: Letter BECo 88-104 dated July 7, 1988, Ralph G. Bird to U.S.
Nuclear Regulatory Commission, Subject: Annual Report of Changes
to the Boston Edison Quality Assurance Program Description

We have received the referenced letter transmitting the Summary of QA Program Description Changes (1988) of the Boston Edison Quality Assurance Program Description. A preliminary review by our staff indicated that the submittal did not contain the specific wording for the proposed changes. This additional information was requested during our telephone conversation dated August 18, 1988. The Region I staff has reviewed the original submittal as supplemented by the additional information and found the changes acceptable as they do not reduce your previous commitments to quality assurance.

The effectiveness of your Quality Assurance Program and procedure implementation will continue to be the subject of routine regional inspections.

If you have any questions concerning the above, please call R.W. Winters on (215) 337-5244.

Sincerely,

Original Signed By:

Thomas T. Martin, Director
Division of Reactor Safety
