Dear Gentlemen:

This is to advise that the membership of the Radiological Safety Committee of the U.S. Department of Agriculture has been changed, effective immediately.

James F. Fons was approved by the Administrator of Agricultural Research Service to replace Donald W. Woodham as the representative of the Animal and Plant Health Inspection Service on the Radiological Safety Committee.

Mr. Fons is the Director of the Hoboken Methods Development Center with responsibilities for the management of all technical and administrative aspects of the center which include the development of irradiation treatment of foods and insects; x-ray inspections of luggage for contraband foods and plants; etc.

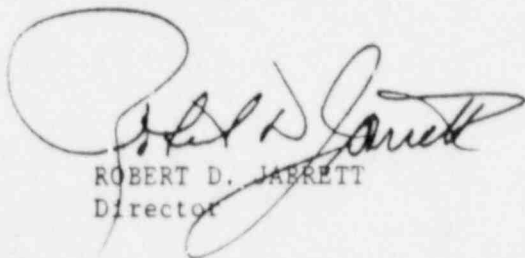

He has training in the use of gas chromatograph containing electron capture detectors and the associated radiation safety.

Mr. Fons has qualified training and experience to be a member of the Radiological Safety Committee.

The licenses affected by the above are:

19-00915-03
19-00915-06
19-00915-08

Sincerely,

ROBERT D. JARRETT
Director
