

DOCKET NUMBER PR 50  
PROPOSED RULE (53 FR 16435)

DOCKETED  
DATE

'88 JUN 23 P1:51 June 22, 1988

890

Joanne E. Ford  
502 South Main Street  
Nahsua, N.H. 03060

OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

Secretary of the Commission  
Attn: Docketing and Service Branch  
U.S. Nuclear Regulatory Commission  
Washington D.C. 20555

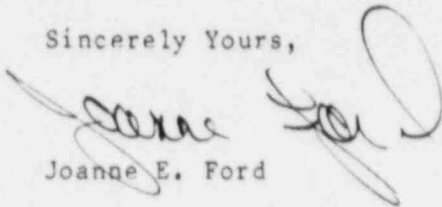

To Whom It May Concern:

As a resident of New England, I strongly urge the Commission to adopt its proposed clarification of emergency planning requirements for low-power licenses to make clear that off site emergency sirens are not required during low-power testing.

The delay in starting-up Seabrook has gone on long enough. How much longer will we be able to use and pay for Canadian power. We experienced many "black outs" last summer when Canada "cut us off" during high peak periods.

It has been proven New England needs Seabrook.

Sincerely Yours,

Joanne E. Ford
