

ENCLOSURE 1

NOTICE OF VIOLATION

Carolina Power and Light Company  
Brunswick Nuclear Power Plant

Docket Nos. 50-325, 50-324  
License Nos. DPR-71, DPR-62

During the Nuclear Regulatory Commission (NRC) inspection conducted on October 17-19, 1988 and October 27, 1988, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1988), the violation is listed below:

10 CFR 50, Appendix E, Section IV.F.5 requires that exercises provide for formal critiques in order to identify weak or deficient areas that need correction, and further provides that any weaknesses or deficiencies that are identified shall be corrected.

Contrary to the above, an exercise weakness identified at the critique for the 1987 Emergency Exercise for failure of Control Room personnel to provide timely followup messages to the offsite authorities was not corrected. Specifically, during the 1988 Emergency Exercise, the Control Room personnel were responsible for providing notification and followup messages to offsite authorities from 6:36 a.m. upon declaration of the Notice of Unusual Event until 8:31 a.m. when the Technical Support Center assumed this responsibility. Although the Control Room personnel made the necessary notifications for the emergency declarations, no followup messages were made from the Control Room to the offsite authorities.

This is a Severity Level V violation (Supplement VII).

Pursuant to the provisions of 10 CFR 2.201, Carolina Power and Light Company is hereby required to submit a written statement or explanation to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include: (1) admission or denial of the violation, (2) the reason for the violation if admitted, (3) the corrective steps which have been taken and the results achieved, (4) the corrective steps which will be taken to avoid further violations, and (5) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time. If an adequate reply is not received within the
